

4/14/75

Dear Ms. Brako,

Your letter of the 10th came today. I've read it and there is not much I can say because of enormous time pressures. Not only am I a one-man publisher but we had serious wind damage a week ago and cleaning up, far from completed, is taxing for me.

I do not think what you say at all nutty.

However, I have a different approach to the subject of assassinations than others. Let me explain.

If I had pictures and a dozen notarized confessions I'd not be believed.

I believe that cleaning the mess up is and must be a responsibility of government.

So, I have concentrated on doing what I believe has some prospect of compelling official action that can be credited and can be definitive enough. I'm exposing the government and its lying in the hope it will have to be honest and conduct an honest and public investigation.

It would be beyond my capability to discover the actual assassins, assuming they live.

The first of the letters to the editor to which you refer was at a time when Oswald lived in Fort Worth, not Dallas - immediately before he left for New Orleans. But without them nothing can be done with them. I'm not at all certain that at this juncture they could have real meaning attributed to them because the papers no doubt did not keep the originals.

Nor am I certain that unless you have substantiation I will be able to do anything with what you believe. It is simply that there is a limit to what I can undertake and I've years of writing already researched. I just can't get time to write despite an inordinately long day.

However, I'll be in New York City in two weeks. There is to be an assassination symposium at NYU law school. I expect to be quite busy both day and night with it and with an effort to keep it within reasonable bounds. I also understand there are to be some radio programs. So, I don't know if or when I'll have what time. I can tell you only that if you would like to see me and if I can arrange it I will be glad to. I'll be at the Chelsea Hotel beginning the afternoon of Thursday, April 24. But as of last night the people with whom I'll be working expected to meet me at the train and to start work immediately.

There is one thing I can assure you. Despite all the propaganda of both sides, the solid hard, irrefutable fact proves that regardless of who pulled what triggers more than one person was in on it and the JFK assassination thus was, within the law, a conspiracy.

So please do not be disturbed in the slightest over what you believe. It is, without any doubt, absolutely correct.

In haste,
